---

### ABOUT ME

- I am a software enthusiast that loves to learn something new every day. I would like to work in a team-oriented environment where I am challenged to learn and collaborate with others.

---

### SKILLS

- I have the ability to rapidly learn new technologies that I am interested in. I can speak English with an intermediate level. Also I have good communication and social skills.

Java	<div></div>	Proficient
Python	<div></div>	Intermediate
Git	<div></div>	Proficient
Kotlin	<div></div>	Beginner
Swift	<div></div>	Beginner
Javascript	<div></div>	Beginner

---

### EDUCATION

- As part of my current studies I have been working with programming languages such as Java, Python, SQL, Javascript and PHP – last two, just introductory courses. Also we worked with technologies such as Git, Wordpress, Oracle 11g, MySQL and CentOS. As part of my bachelor studies I took a Software Engineering course that taught me how to plan software projects throughout its lifecycle. Furthermore I took advance mathematics courses such as: Calculus, Statistics (with R-language), Linear Algebra... . In the near future I am looking forward to finish my bachelor's degree studies.

2016 -  
CURRENT

**Higher Technician in Software Development**  
CPR Daniel Castelao - Vigo, Galicia (Spain)

2016 -  
CURRENT

**Bachelor in Computer Engineering**  
UNED University - Madrid (Spain)
