adrián silva

Software Developer

PROFILE

I am a software enthusiast that loves to learn something new everyday. I would like to work in a team-oriented environment where I am challenged to learn new things and collaborate with others.

EDUCATION

UNED UNIVERSITY

BS Computer Science
September 2016 - Current

CPR DANIEL CASTELAO

Higher Technician in Software Development
September 2016 - June 2018

As part of my current studies I have been working with programming languages such as Java, Python, SQL, Kotlin and Swift. Also I worked with technologies like Git, Oracle 11g, MySQL, MongoDB, macOS and Linux CentOS.
As part of my bachelors studies, I took a Software Engineering course that taught me how to plan software projects throughout its lifecycle. Furthermore I took advanced mathematics courses such as Calculus, Linear Algebra or Statistics with R programming language.

SKILLS

I have the ability to learn new technologies that I'm interested in. I can speak English with an intermediate level. I also have good communication and social skills.

Skill	Level
Mac OS	Proficient
Swift	Intermediate
Java	Beginner
Python	Beginner
Kotlin	Beginner
Javascript	Beginner
Git	Proficient
